Customers to All in Shipping Sweden AB

All in Shipping Sweden AB was registered with the Swedish "Bolagsverket" in January 2010, Operations in Freight Forwarding and Logistics, and has now been active for just over 16 years. These have been fantastic years that I will always carry with me with great joy.

After just over 53 years in the Shipping and Freight Forwarding business, it is now time for me and my wife Marianne to have more time for other things in life, with grandchildren as well as travel and other interests.

For me, it has been of utmost importance that when we close the company, we will be able to offer our customers a replacement party that can offer at least as good of a service to both our current and new customers. From April 21, we have entered into a Customer transfer Agreement with a well-known Swedish independent logistics company **Jata Cargo AB**. The company has recently opened a new office at the same address as All in Shipping Sweden AB at the Port Office in Helsingborg with the address Oceangatan 3, 252 25 Helsingborg. In addition to its extensive road transport within Europe, the company also specializes in logistics and freight forwarding within Sea and Air.

We highly recommend our current customers continue booking their transport with Jata Cargo AB. You will soon be contacted for a closer introduction by Stefan Larsen at Jata Cargo AB. www.jatacargo.se

Below is a presentation from Jata Cargo AB, and their Site Manager, Stefan Larsen.

We are honored by the trust from All In Shipping and Mats Wieden to give All in Shipping customers a smooth and easy way to continue booking their transports. Jata Cargo intends to continue delivering at the level you as a customer have had with All in Shipping and we look forward to meeting you soon.

Stefan Larsen
Site Manager, Jata Cargo AB

We thank you for the great trust and support that we have had from our customers over the years and wish you all the best with your future transports.

Mats Wieden / CEO / owner All in Shipping Sweden AB
